Rear Track: Don't move hubs in. Track will narrow with 180mm wheels. Front Track: Tony Kart wheels, Top of inside front rim to centre of*

The standard setup for the OTK chassis is a very good base setting and works well in most conditions. A recommendation when coming to a new track is to always start with the base set up and then make any adjustment needed from there. If you get lost with your chassis setup, then just return to standard setup and the kart will work again.

staff will be a kart setup kart chassis Kosmic kart manual. How to tune common setup problems. Below are fixes to common issues. These are recommendations I have found in different kart manuals including Tony, Kosmic and Arrow. Hi I just purchased a tony kart evr racer and I am a bit confused on setting caster & camber

Wheel Alignment Settings It is important to have correct wheel alignment on your kart to achieve maximum performance. But what are the magic numbers? E-Racer Briggs 5hp Jr. Tony Kart Mitox 125cc Shifter Bridgestone YHC 385lbs 1mm in 2mm pos Tony Kart Mitox Rotax Light MG 160kg 1mm in 2mm pos
